## COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

Owners of woodland who wish to file under the New Tree Growth Tax Law must do so prior to Nov. 1, to be eligible for participation in 1973.

They must file schedules with the local assessors describing their land. These are available at the Town Office. Also the land owner must provide a map of the property.

The purpose of the law is to tax forest land according to the productivity of the area. The State Tax Assessors will determine this on all species of wood, he also will determine the average value of stumpage applicable to each region.

It would be of great assistance to both a land owner and this office if owners would come in early to file, as this is a new law with little information in the hands of our local assessors. There will be questions asked we will not be able to answer unless we have time to obtain them from the Bureau of Taxation. Elwyn N. Dickey

## GAME WARDEN LOSES LIFE AS RESULT OF HELICOPTER CRASH IN WINTHROP

—Victim Former Bethel Resident—  
Game Warden Richard E. Varney of Readfield lost his life by drowning early Wednesday morning, Sept. 27, 1972, when the Maine Fish and Game Department helicopter he was operating crashed into Lake Maranacook at Winthrop. The victim formerly resided in Bethel and had been a member of the warden service for 16 years.

Mr. Varney's body was recovered at about 9:30 a. m. approximately two hours after the crash occurred. Cause of the crash is not known, but it is thought that Mr. Varney was landing at the seaplane base on the lake for fuel. The craft was recovered from the lake by an Army National Guard helicopter from Bangor International Airport on Wednesday afternoon.

In a similar tragedy at the same lake in 1955, two game wardens lost their lives as they were trapped in a light seaplane for 25 minutes following a crash into the lake. At that time the plane was suspended by its pontoons upside-down in the water.

Mr. Varney was born in Sumner, June 2, 1931, the son of Donald C. and Ellen Spaulding Varney. He was a 1950 graduate of Gould Academy and was a four year veteran of the U. S. Air Force. He also attended the Spartan School of Aeronautics.

He joined the warden service in 1956 and for the past 16 years had been a flying warden. He had lived in Readfield for the past five years and was a member of the Masonic Lodge of Fort Kent and Caribou. Mr. Varney was a member of the Aircraft Owners' and Pilots' Association and of the Readfield Volunteer Fire Department.

Surviving are his parents of Bethel; his widow, Linda Penrod Varney; two sons, Dean and Donald; and two daughters, Margaret and Susan, all of Readfield; and a sister, Claire Varney, Bethel.

Funeral services will be held Saturday morning at 10 o'clock from the Roberts funeral home, 21 Bowdoin Street, Winthrop. Friends may call Thursday, 7:00 p. m., Friday, 2-4 and 7-9. In lieu of flowers, friends may make donations to the Readfield Volunteer Fire Department. c/o Daniel Harriman, Readfield, Maine.

## I REMEMBER

From Mike Miloserny, Plymouth, Ind. I remember no less than seventy years ago when I was about two or three years old going over to the neighbor's place which was about 500 feet away. It was actually a former school house, and I remember sitting down in an upended wash tub facing the sun — eating a piece of apple pie which the neighbor lady (a Mrs. Huggins) gave me.

After these folks moved out, my Dad had this building moved close to our farm and he converted it to a cow shed. After our new barn was built, the shed was moved again and converted into a hog house and corn crib. Dad died in 1918 during the flu epidemic and then I took over. I replaced the old corn crib with a new one and today that old building still serves as a combination hog house and corn crib.

Although I don't live in the old place anymore, I still have fond memories of how things used to be.

RECOGNIZED BY  
MERIT PROGRAM

Four outstanding Telstar seniors  
have won recognition in the National  
Merit Scholarship Qualifying  
Program. Roger Buck achieved semi-  
finalist standing by his high score  
on the National Merit Scholarship  
Qualifying Test. His score ranks  
him among the top one per cent  
of all graduating seniors in the  
United States.

Three other Telstar seniors, Pamela  
Benson, Michael Davis, and Sharon  
Dombkowski, were named as

## TELSTAR R. H. S. NEWS

## STUDENT COUNCIL NOTES

The newest thing happening at  
Telstar this year is the Co-op program.  
This program allows some  
students from the Junior and Senior  
classes to work outside of school  
learning a craft. This is another effort  
the school is making to fill the  
individual needs of its students.

The seniors took time out from  
diligently working on school applications  
to hold a victory dance this  
past Saturday night. The dance was  
both fitting and proper due to the  
results of the football game and  
cross country meet. Our perfect  
record was broken however on  
Monday when the Field Hockey  
team lost to Dixfield 2-0.

This coming week end the Senior  
Band will be performing for Bethel  
Homecoming. Other organizations  
have events coming along soon also.  
The Chess Club has its first meet  
Oct. 4 and the National Honor Society  
is sponsoring a car wash next  
Thursday at the Shell Station in  
Bethel.

We have two clubs that are making  
plans to travel this year. The  
Spanish Club hopes to go to Spain  
and the Library Club is working  
towards a visit to Washington, D.  
C.—Student Council Representative,  
Sharon Dombkowski

and projected at the Bible  
Institute of New England.

**TIRE SELLERS MUST RECORD**  
**NAME/ADDRESS OF BUYER**  
—SERIAL NUMBER OF TIRE

This fall could be remembered  
as "the season of the great registration."  
While millions of young people  
are registering to vote for the first  
time, millions of motorists are  
being reminded to register their new  
tires.

Recent federal safety regulations  
require everybody who sells tires  
to record the name and address of  
the purchaser, along with the serial  
number of the tire.

"Once the dealer has this information,  
he will forward it to the manufacturer,"  
says Ross R. Ormsby, chairman  
of the Tire Industry Safety Council.  
"In the unlikely event a defect is  
later discovered in similar tires,  
the owner will be notified by certified mail."

"We urge all motorists to make  
sure the seller's registration records  
are accurately completed for the  
purchaser's own protection,"  
Ormsby added.

"Tire manufacturers are doing  
their part to make the system  
work, but we must have the cooperation  
of tire purchasers, retailers and  
everybody else in the chain of  
distribution."

Tires manufactured before May 22,  
1971, some of which are still being  
sold, do not require registration.

The latest identification number  
will appear on the tire's sidewall,  
and would read something like this:  
DOT G110, A1K362.

"DOT" means the tire meets or  
exceeds Department of Transportation  
safety standards. ("G" is a  
code assigned by DOT to the  
manufacturing plant. "11" is the  
size, in this case G110, is  
a group of up to four letters  
to identify the brand, construction,  
sign or other significant characteristics  
of the tire. "362" is the  
tire was made during the 362nd  
of 1972.

"If the tire you buy has a  
registration code, made by the  
dealer fills out the proper form  
and returns them to the manufacturer,"  
Ormsby said.

"We wish to express sincere thanks  
to our relatives, friends, neighbors,  
pastors and also the nurses on the  
curriculum floor at Rumford Community  
Hospital, Dr. Aucott and all  
others for their kindness and sympathy  
shown to us in our recent  
bereavement. Also for the money,  
cards, flowers and food.

Mr. and Mrs. Bruce Simmons  
Mr. and Mrs. Marshall Meisner  
Lorena and Becky Simmons

## MINIMUM WAGE FOR MAINE

## SMALL BUSINESSES TO INCREASE OCT. 15

The minimum wage rate for small  
businesses will increase from \$1.40  
to \$1.60 an hour on Oct. 15 in accordance  
with an amendment to the  
wage law enacted by the Maine  
Legislature in the 1971 regular session.  
The law provides that the  
business which employs fewer than  
four persons in one day need not  
pay the rate of \$1.60 an hour which  
applies to larger enterprises. Instead  
they have been paying not less than  
\$1.40 an hour since last Oct. 1, and  
will be required to pay not less than  
\$1.60 as of Oct. 15 this year.

Beginning Oct. 15, 1973, they will  
be subject to the same minimum wage  
applicable to larger businesses, whatever  
rate that may be at the time.

The law provides a lower rate for  
students under the age of 19, who  
has been \$1.05 an hour where there  
are fewer than four employees in  
one day and this will go to \$1.20  
an hour Oct. 15. Overtime after  
hours is required for both students  
and non-students.

There are exemptions from the  
minimum wage and overtime requirements  
such as for agricultural, domestic  
work, certain non-profit organizations,  
outside salesmen, cab drivers, and  
the fishing industry. There are also  
exemptions for processing of fishable  
products and hotels, motels and  
restaurants.

## GOULD THIS WEEK

Two Gould Academy students left for France this week, amid hurried goodbyes and a flying visit to the United States passport office in Boston.

Both Renetta Nobles, a senior from North Carolina, and Kevin Jenness, a senior from Bridgton, will spend the fall term studying at the Ecoles des Roches sur Avres, returning in December to finish their studies at Gould.

Their departure was the latest development in a year of intense international activity at the Academy. Already two other Gould students are at work in the Jugend-Christophorus-Soule in Elze, West Germany, and others are expected to follow later in the year.

In addition, 15 students from schools in Europe, Africa, Canada, and Latin America are now in classes at Gould. Seven are from Germany, three from Norway, with the rest hailing from Venezuela, Belgium, and Gambia (West Africa).

School administrators hope that these students will be joined by others from Ecoles des Roches in January adding French to the several languages already heard around the campus.

Fall sports at Gould began in full last week.

The football team defeated Boothbay 6-0, in a hard-fought Alumni Day game here in Bethel, Saturday.

The soccer team, strengthened this year by players from Norway, Germany and Gambia, defeated Fryeburg Academy 6-2.

The girls' varsity field hockey team tied players from MCI 0-0 in an away game. And on the same day, the junior varsity team lost by a score of 0-3.

In the week coming up, watch for the following:

Sept. 30: Football, away, at Fryeburg Academy, 1:30 p.m.; Cross country, away, at Fryeburg Academy, 2:30 p.m.

Oct. 3: Soccer, here, against Winthrop Academy, 3:30 p.m.

## CONSUMERS' CORNER

**Shopping harder**  
The price of food is a matter of special concern to all consumers. But consumers have a responsibility to do their part to hold the line on food prices—and their food budget—by shopping harder.  
Consumers can shop harder by buying the plentiful foods that come into the stores as the seasons progress and change; when there is a good supply of certain foods—broilers and fryers, turkeys, eggs, melons, apples, fresh vegetables—prices will be better than usual. Reading and clipping the food ads in local newspapers makes shopping harder much easier because the shopping list will include many "specials" each week.  
Comparing prices is helpful to find the best buy for a family's needs. Many supermarkets are making price comparisons easy, by using unit pricing.  
It takes a little extra time to shop harder every week, but saving groceries can help fight high food prices and that's worth the time.

## your week ahead

BY DR. A.W. DAMIS

Forecast Period: October 1 to October 8, 1972

**ARIES**  
Mar. 21 - Apr. 19  
Changes and events for which you should have prepared, now reach a critical stage. Resist the urge to postpone obligations. Commitments that you neglect now . . . are loaded with delayed reversals.

**TAURUS**  
Apr. 20 - May 20  
Planetary configurations put special emphasis on your health. Many under your sign can anticipate chronic health problem flair up . . . if diet and rest are neglected.

**GEMINI**  
May 21 - June 20  
Steer clear of bizarre and far out groups or social gatherings. A clandestine relationship that leads to incalculable consequences is indicated for some persons of your sign.

**MOONCHILD**  
June 21 - July 22  
According to your chart, it's advisable that you recruit friends and allies. It seems as though you will need support in order to defend yourself against an unforeseen event or situation.

**LEO**  
July 23 - Aug. 22  
Avoid, if possible, a change of routine or projects. In other words, any attempt to undertake new ventures could result in failure. Incidentally, the same applies to your romance pattern.

**VIRGO**  
Aug. 23 - Sept. 22  
This week's cosmic cycle puts emphasis on social activities. It seems as though some Virgos can do no wrong when it comes to getting along with the opposite sex.

**LIBRA**  
Sept. 23 - Oct. 22  
You have now entered a phase of being involved in minor crises. Your associates, now, regard you as being a walking contradiction. Control the urge to make radical and peculiar changes, to put it mildly.

**SCORPIO**  
Oct. 23 - Nov. 21  
This cosmic cycle brings out your assertiveness. So, your opinions and your manners of expression can exert great influence on associates and a member of the opposite sex.

**SAGITTARIUS**  
Nov. 22 - Dec. 21  
In spite of a tendency, on your part, to romp and frolic . . . associates and persons in authority are ready to give you a break.

**CAPRICORN**  
Dec. 22 - Jan. 19  
A scramble for a task, mission or project is indicated. Tack with the wind, as does the politician: If you can't get the whole — settle for half.

**AQUARIUS**  
Jan. 20 - Feb. 18  
It seems as though you are going to hurt someone's feelings; someone who simply cannot afford to become angry. The point? A person now in a subservient position might plan a reprisal.

**PISCES**  
Feb. 19 - Mar. 20  
Don't misread the unusual cooperation that might exist between you and a feuding associate. Stellar patterns warn against "cat and mouse" trickery.

### MAINE FISH AND GAME ASSN. TO OPPOSE GUN CONTROL LEGISLATION

The board of directors of the Maine Fish and Game Association has voted to oppose the gun control legislation now being considered in the U. S. House of Representatives. The bill, S. 2307 which was passed by the U. S. Senate is the so-called "Saturday Night Special" bill. The Association voted to send letters to Senator Smith and Muskie expressing their support of the bill while it was in the Senate, and to send telegrams to Representatives Hathaway and Kyros strenuously urging them to vote against any form of gun control legislation.

Leroy Gardner, president of the Association stated that his members are tired of the gun owners being

made out to be the wrong doers when he said, "The effort should be devoted against the criminal where it belongs and not against the majority of us who are hard working, tax-paying citizens who never commit crimes."

Mr. Gardner continued "We are not fooled by the outright deceit of this bill. It is nothing more than an attempt to disarm the American Citizen and this is the first step."

The Association also passed a resolution stating that "the 1968 Gun Control Act has done nothing to curb crime and that the real fault in this crime increase is the laxity of our judicial system."

The Maine Fish and Game Association which represents thousands of hunters and fishermen across the state has alerted all of its clubs and members to the pending bill and has voted to spend every cent in our treasury to alert the people of the state to what is really going on."

discarded Christmas trees and he has recycled many a tree into something useful. Bacon travels around the countryside now showing his wares and their usefulness. He had a display at the annual Maine Christmas Tree Growers Association summer meeting in Cornville and many Maine Christmas tree growers were impressed with the fruits of Claude Bacon's labors.

Some people don't buy natural Christmas trees because they only last one year. A few buy artificial trees made of aluminum and steel. It takes energy to produce aluminum and steel, in fact it takes 33 times as much to produce aluminum as wood. The production of energy causes pollution. Trees are a renewable resource and when one is removed one takes its place. Metal products are non-renewable. So here's the answer to the people who dislike discarding Christmas trees—recycle.

Recycling used Christmas trees can be a group project for civic organizations, scout troops, 4-H and Grange members and just about anyone who would enjoy this type of endeavor. At the same time the sale of the wood products can produce money needed for projects. Here's to recycled Christmas trees and years of use from previously discarded Christmas trees.

## "A TIME TO LIVE" TO START THIRD SEASON OCTOBER 3

Maine's only weekly television program designed expressly for the state's older generation begins its third season next Tuesday, Oct. 3, on Maine's four public television channels.

"A Time to Live", the award-winning series for the elderly produced by the Maine Public Broadcasting Network, launches its third year on Tuesday, Oct. 3, at 7:30 p. m., repeating each Sunday at 7 p. m. and Monday at 8:30 p. m.

This first program in the new "A Time to Live" schedule introduces two "regulars": home economist Brownie Schrumph, and handyman Mardis Warner. They will join hosts Ed Mayo and Dawn Hales to inaugurate the new season and a new feature, Ed's fix-it shop, where viewers can find out how to make inexpensive repairs. Brownie is already well-known to "A Time to Live" viewers for her expertise in cooking and meal-planning.

"A Time to Live" has gained national recognition as an example of the use of public broadcasting for special audiences. During the past year, a sample half-hour composite of some of the series' outstanding programs was broadcast nationwide to public television managers and programmers throughout the U. S.

"A Time to Live" is produced in part by a grant from the Maine Department of Health and Welfare Services for the Aging.
